APPLICANTON DENCE ADDRESS:
ADDRESSEE: Pennie & Edmonds
STREET: 1155 AVENUE of the Americas
CITY: New York
STATE: New York
COUNTRY: U.S.A.
ZIP: 10036-2711
COMPUTER READABLE FORM:
APPLICANTING SYSTEM: PC-DOS/MS-DOS
OPERATING SYSTEM: PC-DOS/MS-DOS
SOFTWARE: Patentin Release #1.0, Version #1.30
CURRENT APPLICATION UNDMER: US/08/480,065
FILING DATE: 07-JUN-1995
CLASSIFICATION: 435
CLASSIFICATION STATE:
APPLICATION NUMBER: 30,742
REFERENCE/DOCKET NUMBER: 3996-012

score greater than or equal to the score of the result being and is derived by analysis of the total score distribution.
                   Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed,
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     seq length: 0

```

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
